REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art teaches related point-in-time systems, but fails to teach the combination including the limitation of:

(Claim 19) "...invalidating said entries in said array for said at least one of said first and said second session when at least one of a new first session and a new second session is initiated; and wherein said first session and said at least one session are initiated and controlled by a first host, and point-in-time viewing of the data on the disk is conducted by a second host";

(Claim 20) "...said linear map comprising a Map Region subsystem, a Paging subsystem, a Chunk Repository subsystem and a Direct Linear Map subsystem; assigning predetermined slots for corresponding sessions in said array; and assigning a unique session ID for each session for which entries are stored as said array".

Claims2-4, 6-10, 12, 13, 15-18 and 21 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
